PREMIER HUGE CENTERFOLD ISSUE!!!

March Elections

Elections for club officers will be held after the Pin Match in March. All positions will be up for a vote but we know that Jeff Hanger, Rob Ripple and Jennifer Hupp are not running for reelection. Additionally, we need to find range officers/match directors for the matches that Rob Ripple used to run.

Ladies and gentlemen, now is not the time to ask what my gun club can do for me, but rather focus on what I can do for my gun club!

The club provides six monthly matches for friendly competition, a number of additional matches (such as hunter’s silhouette and cowboy action pins), Boy Scouts and Ducks Unlimited youth activities as well as a general purpose range open to the public. This may not sound like much to some of you but it’s a meaningful service to the thousand plus shooters who use the facility or participate in matches each year.

The fact is that the club has been built up from scratch on the sweat and toil

of its members and officers. Everyone’s contribution is appreciated and this spring it’ll be time for new people to step up and fill positions on the board. I hope each and every one of you will consider what you can do to help.

At the very least come out to the voting meeting on 11 March and participate. I’m even going to bring donuts.

Cowboy Pin Match

There were quite a few questions about this new match. Things like; “What guns are required?”, “How many pins are going to be shot?”, etc. If anyone knows the answers to these kind of questions please drop me an email and I’ll get it in next month’s newsletter. In other words, will the person who set this up please send me a rundown of the rules? Thanks.

Centerfolds

I’m planning on putting a centerfold in every issue of the newsletter from now on. I apologize that it won’t actually be a center”fold” ‘cause it’s

formatted for 8.5 by 11 inch paper. If anyone feels that the centerfold I’ve chosen is racy, inappropriate, in bad taste, not suitable for children and/or spouses....

Please let me know, I’ll happily refund 100% of your newsletter subscription price.

Thanks
 Rick Jordon

Sexy beast, isn't she? I know, it's a little risqué, a kind of downblouse camera angle on the little lady.... But I thought it was an artistic angle on this beautiful lady.

Now, most of you reading this have been shooting here a lot longer than I have, but I've never seen this lady being shot at Dillon. Maybe some of you have...

I have seen it shot in another locale. I've even seen it carried as a "service" ammunition – although that's a whole nuther story as they say.

Be the first to email me her name and you win!

Maybe next month we'll get a peek under the covers of a gun that shoots her ☺

But, speaking of ammunition... The Sporting Arms and Ammunition Manufacturers' Institute (SAAMI) has recently updated their website.

<http://www.saami.org/>

The website now has online technical drawings for all its supported cartridges including case and overall dimensions and chamber dimensions. Additionally, the technical specification books are now available as pdf documents. This is a great free reference site for reloaders.
